## EDUCATION

**Boston College**, Chestnut Hill, MA

May 2020

B.A. **Communication**, Concentration **Computer Science**

## SKILLS

### Languages

> React JavaScript      > Java  
> HTML5                      > Python  
> CSS3

### Dev Tools:

> Firebase                      > Node.js  
> React MDL                  > Terminal  
> GitHub

## PROJECTS

### Weather Tracker

- Engineered an app to display weather conditions of any location requested by user
- Implemented API calls to the Open Weather Map to return the reliable, live weather data
- Incorporated appropriate weather icons to match weather conditions, dynamic background color-based on temperature, and error handling to ensure location is valid.
- Utilized CSS3 for special rain and snow animations
- Applied Modern JavaScript Fetch AP along with React hooks and conditionals

### MattKuda.com

- My portfolio website built with React JS
- Integrated React MDL to build a navigation bar, header and footer, and unique components
- Email form validates user inputs before routing data to Google Firebase
- Demonstrated the importance of having both clean front-end and reliable back-end
- Engineered the application layout for mobile and desktop compatibility

## EXPERIENCE

**LogMeIn** | Boston, MA

Summer 2018

Accounting Intern

- Coordinated with finance department heads to provide quarter-end audit documentation
- Facilitated wires and batch payments to select vendors while creating detailed excel sheets to log their specific costs and purposes
- Oversaw employee expense reports to ensure they were of valid practice and paid on-time
- Collaborated with peers on the reduction of expenses and unnecessary costs
- Performed ad hoc analysis of accounting transactions and balance sheet accounts
- Developed a working knowledge of requisite software and internal work flow/procedures

## INVOLVEMENT

**BC Men's Volleyball**

2016 – 2019

- Starting middle blocker on highly competitive team, placing top-25 nationally in 2018
- Commit 25 hours per week to training, meetings, travel, and competitions

**BC Rec Personal Trainer**

2016-2019

- Identified goals and design unique training programs tailored specifically for each client
- Taught clients proper form for various exercises and stretches to maximize progress
- Motivated clients intrinsically to maintain and enjoy a fitness lifestyle
